CHARLES G. "LEFTY" DRIESELL

Maryland Basketball Coach "Lefty" Driesell has not only established one of the finest basketball programs in the nation at the University of Maryland but his efforts have contributed greatly to the increased interest in the sport throughout the area on all levels.

When Coach Driesell accepted the challenge offered him at College Park he immediately won over the basketball fans with his exciting game and packed Cole Field House.

While building a solid, winning program he has also found time to develop several professional players, a Rhodes Scholar, two Phi Beta Kappas, and win 199 basketball games in just 10 years at Maryland.

Only one other active coach has a better winning percentage than Driesell's .714 in 19 years as a major college head coach, including nine at Davidson. He has averaged 19.9 wins a year while at Maryland and 19.7 a year for his 19 year coaching career, with a record of 375 wins against only 150 losses.

His summer camp at Maryland continues to fuel interest in the sport among the youngsters and is recognized as one of the finest in the nation featuring the finest basketball minds to instruct the youngsters.

Driesell has not only established Maryland Basketball in Maryland but has his program recognized nationally. His many achievements have come despite competing in the toughest basketball conference in the nation over the years.

No NCAA team has ever been more proficient at shooting, his teams always rank among the nation's leaders in scoring, rebounding, free throw shooting and winning. He has never had a team out-rebounded, despite the lack of height on some teams. Ten of his teams have topped the 50 percent mark in field goal percentage. Ten of his teams have scored over 80 points a game including the Maryland record of 89.9 in 1974-75. Eleven of his teams have won over 20 games in a season.

He has often deviated from his basic philosophy to adjust to the talent on hand and this is the toughest job any coach has. His current team will operate from a basic 2-1-2 offense while over the years he has preferred to operate with a double post. In the past when blessed with an abundance of talented guards he has operated from a three quard offense.

"Lefty" stresses the man-to-man defense, feeling that in order to be a well rounded basketball player, in order for a team to win a national championship and in order for a team to utilize all of its natural talent it is necessary to play the game man-to-man.

He has contributed numerous assistant coaches to the college ranks as head coaches with assistants moving on to such schools as Virginia, Davidson, Cincinnati, Washington State, West Virginia, William & Mary, South Carolina State, Hofstra, and Point Park.

His Terps have excelled in International competition with a 10-0 record against some of the finest teams in the world, including the USSR and Yugoslavian National teams. Five of these teams have visited Cole Field House while the Terps also won the Eighth Intercontinental Cup Games in Mexico City in 1974.

In his 10 years in College Park nearly two million fans have visited Cole Field House to watch the Maryland basketball team. The Terps have averaged 12,304 per date and 183,344 a season just to watch the regular season games.

Driesell has also hosted the NCAA finals in Cole Field House, several NCAA Regional games and established one of the finest Holiday tournaments in the Maryland Invitational.

"Lefty" has always been a winner starting his coaching career as a Junior Varsity Coach at Granby High in Norfolk, Virginia, his hometown, and continued on to become the best in his profession in the history of the state with 57 consecutive wins at nearby Newport News High. His ability to teach fundamentals became evident

Coach Driesell poses with former players Maurice Howard, John Lucas, Len Elmore, and Tom McMillen during his annual summer basketball camp.

imediately for where is there a beter test than developing junior varsity talent. His first junior varsity team won 18 of 22 games and he then continued with the talent he had helped develop to win 15 of 20 with the varsity team at Granby.

After moving to Newport News High for two years he left with not only a 57 game winning streak behind him but a state championship and 64 wins in 70 games.

When he took over the dormant program at Davidson College his coaching ability again became immediately evident as with the talent on hand he recorded the best record Davidson Basketball had achieved in five years and in only his second year led the Wildcats to their first winning season in 13 years. In only his third season Davidson had recorded its first 20-victory season in 54 years of competition and had achieved national prominence.

After leading Davidson to six 20-victory seasons (6 teams in the top 20) and a 27-3 record in 1969 he accepted the challenge of another building program and moved on to College Park, Maryland.

Again "Lefty" with the talent on hand transformed a loser into a winner. He recorded a 13-13 season in his first year and followed with a 14-12 and then in only his third season led the Terps to a 27-5 record and a National Invitational Tournament Championship.

He followed that with a 23-7 record and a berth in the NCAA Eastern Regional Finals and then a 23-5 season with third or fourth place antional ranking depending on which poll or publication you follow.

A berth in the NCAA Midwest Regional Finals followed with a 24-5 record, a fifth place ranking and an All-Time NCAA fecord for field goal accuracy hitting .547 percent from the field. It was his second NCAA field goal accuracy record with the first coming at Davidson.

His 1975-76 team gave him five consecutive 20 victory seasons at Maryland with a 22-6 record and ranked eleventh in the nation.

His 1978-79 team just missed a 20 victory season with a 19-11 record but advanced to the second round of the National Invitational Tournament. The Terps during the regular season had defeated three teams ranked among the top five at the time in Notre Dame 67-66 while they were the nation's top ranked team. Duke fell 70-68 while ranked third and North Carolina State 124-110 while ranked fourth.

Driesell has had numerous players win national honors but certainly one of the most pleasing performances was that of Buck Williams leading the ACC in rebounding and winning "Rookie of the Year" honors as a freshman in 1978-79.

Even when "Lefty" is taking one of his short vacations he is where the action is. On July 12 of 1973 while surf fishing at Bethany Beach, Delaware around midnight "Lefty" was credited with helping save the lives of at least 10 children and several adults from burning buildings in a townhouse complex near the beach. As a result he was honored with the NCAA "Award of Valor" becoming the first coach to receive the award.

"Lefty", his attractive wife Joyce and their children Patty, Pam, Carolyn, and Charles are members of the Colesville Presbyterian Church. "Lefty" was born on Christmas day 1931.

He was highly recruited in high school and made his decision in January announcing his intentions at that time ending the recruiting drive of many schools at that time.

His brother Dan was All-New England as a baseball player at the University of Massachusetts.

"LEFTY" Says — "John Bilney is the only senior on our squad and has more experience than the majority of our front-court people. He is a hard-nosed defensive player and an excellent passer and rebounder; and will certainly be a boost to our ball club coming off the bench."

Charles Linwood "Buck" Williams

6-8, Sophomore, Center-Power Forward
Rocky Mount, North Carolina

"Buck" Williams came to Maryland from Rocky Mount High and immediately made the fans around the league take notice as he led the ACC in rebounding as a freshman and captured "Rookie of the Year" honors.

He pulled in 323 rebounds in 30 games for a 10.8 average with league runner-up Mike Giminski of Duke pulling in 275 in 30 games for a 9.2 average.

While at Rocky Mount he scored over 1,000 points and pulled in over 1,000 rebounds. In his senior year he averaged 21.3 points a game and pulled in 19.7 rebounds a game while leading Rocky Mount to the State Championship. He Captained the basketball team for Coach Reggie Henderson. He played football in junior high as a defensive end.

"Buck" was a high school All-American, including Scholastic Coach and was named the Most Valuable Player in the State Tournament. He played with the South team in the Mini-Olympics during the summer prior to entering Maryland. This past summer he played with the United States team in the International Cup competition and was the second leading scorer on the 11 man squad with 62 points in five games. The team lost only to the Russians.

He was cited three times as the ACC "Rookie of the Week" enroute to the "Rookie of the Year" Honors. Contributing to his selections were 15 rebounds in the 67-66 upset of Notre Dame, the Nation's top ranked team, on National Television, his 13 rebounds against then fourth ranked North Carolina State and 23 rebounds along with 26 points in the Penn State and Biscayne games.

He had 19 points against North Carolina to go with 14 rebounds in his highest scoring game while his top rebounding game came in Las Vegas when he pulled in 22 against the Nevada-Las Vegas team. He also had 17 points in that game.

While playing center in the November 2 game against the Yugoslavian National Team he scored a game high 27 points and pulled in a game high 16 rebounds despite facing a 6-11 opponent.

He was a power forward in the early pre-season sessions but with the departure of Larry Gibson may wind up at center this winter, and is certain to excell at either position.

He ran the mile faster than any basketball Terrapin ever had for Coach Driesell turning in a 4:59 as a freshman. This past October he topped that with a 4:53.

DATE OF BIRTH — March 8, 1960 in Rocky Mount, North Carolina.

"LEFTY" Says — "Buck Williams was the leading rebounder in the ACC as a freshman last year and as I told Buck, that will make it even tougher for him to lead the ACC in rebounding this year. However, Buck has worked hard in the off-season and played extremely well in the International Cup Games. I look for Buck to be even more aggressive off the backboards and to increase his 10.2 average of last year. Buck has the potential to become an All-American if he is willing to pay the price."

Taylor Baldwin

6-10, Sophomore, Center
Greenwich, Connecticut

Taylor Baldwin came to Maryland from Greenwich High where he was All-State as a center playing for Garland Allen. He Captained the Greenwich High team and played with the Connecticut All-Stars in the Akron All-American Classic and in the Bridgeport Jewish Classic.

He set all of his high school scoring and rebounding records. In his senior year he averaged 23.1 points a game and 15 rebounds.

His father, now deceased, was a football and hockey star at Harvard and was invited to the Olympics in Hockey.

He played sparingly as a freshman but did get in 18 games. He hit his high of four points and four rebounds in the Biscayne game as he played 13 minutes. He had two points and three rebounds in the final game of the season against Ohio State in the NIT.

He played nine minutes at center against the Yugoslavian National Team in a physical game.

DATE OF BIRTH — March 10, 1959 in Bombay, India.

"LEFTY" Says — "Taylor lost 27 pounds over the summer by doing a lot of running, agility work, and working hard on his game. He is getting up and down the court quicker, and jumping better and he will have a shot at being our starting center this year. Taylor is a competitor and if he can do a solid job for us defensively on the boards and score inside, he may very well be our starting center this year. He has worked harder in the off-season than just about anyone I have ever coached and I feel certain it will pay off for him."

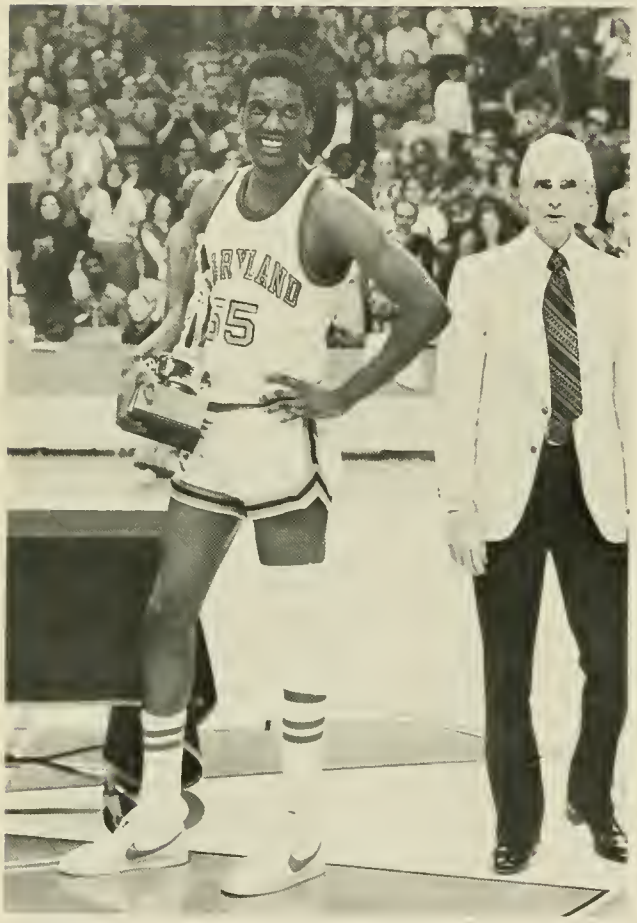
Albert King

6-6, Junior, Quick Forward
Brooklyn, New York



Albert King came to Maryland from Fort Hamilton High as the "Best Basketball Player in New York City" and was proclaimed by many as the greatest high school basketball player in the country.

He may well become the best basketball player in the ACC this winter after a lot of hard work and a summer of International competition. In the November 2 game with the Yugoslavian National Team he hit 26 points and pulled in 11 rebounds despite playing against much taller opposition and hit the boards as hard as anyone can.

He scored 381 points as a freshman and 444 as a sophomore while contributing 126 assists during the two years and pulling in 331 rebounds.

He will play the quick forward in Coach Driesell's switch to the 2-1-2 offense this year. Al started 26 games as a freshman and 24 last winter and was the ACC "Player of the Week" while winning MVP honors in the Maryland Invitational Tournament.

An exceptional team player he had a high of 30 points as a sophomore after a high of 27 points as a freshman. He twice scored 27 points last year, in a slow down against St. Joseph's that the Terps won 62-56 in overtime, and the final game of the season against Ohio State in the NIT.

As a freshman he had 64 assists, 21 steals and 11 blocked shots to go with his scoring and rebounding and last winter had 62 assists, 30 steals and ten blocked shots.

He averaged 31.3 points a game for 64 games in high school and pulled in 20.6 rebounds a game with a total of 2,004 points and 1,284 rebounds. He was named by Parade Magazine as one of the top three basketball players in the nation and was a three year All-American in high school. He was an honorable mention All-American for the Terps last year.

He cut 24 seconds off his best mile time this past October as he covered the mile in 5:06, second best on the team, and the mile and a half in 8:32 just one second behind Buck Williams the leader. King has worked hard to prepare for his junior year and the results are certain to be pleasing to Terrapin fans.

His brother played at Tennessee.

DATE OF BIRTH — December 17, 1959, in Brooklyn New York.

"LEFTY" Says — "Albert is still only 18 years old and will not be 19 until December 17. He has matured and worked very hard this summer and fall on his shooting and has spent many hours in the nautilus and weight rooms during the off season. He has increased his upper body strength tremendously. I think Albert is in the best shape of his career and with continued work can become our next All-American here at Maryland."

Two rankings of the Winningest Major College Coaches are produced each year, one by the NCAA Statistics Service and one by Elmore "Scoop" Hudgins, Originator of The Coaches Top Twenty.

Maryland's "Lefty" Driesell ranks high in both. The NCAA lists all coaches with a minimum of five years as a major-college head coach and Driesell is in the top ten. In Hudgins poll Driesell ranks second among the coaches with a minimum of 299 victories for their career. Driesell's record is 375-150 for 19 years.

The NCAA also has Coach Driesell listed as one of the top 20 Winningest Major College Coaches of All-Time with a minimum of 10 years. Only one coach ranked ahead of him is still an active head coach.

The National Association of Basketball Coaches of the United States honored Coach "Lefty" Driesell with "The Merit Award" at their annual banquet on March 25, 1979 in Salt Lake City the site of the NCAA Finals.

Albert King was voted the Most Valuable Player in the 1978 Maryland Invitational Tournament by the Working Press. King also led the voting for the All-Tournament team with Larry Gibson second and Ernest Graham also on the team as the Terps won the tournament for the seventh time in the eight years it has been held.

Albert King, Ernest Graham and Greg Manning were honored as Atlantic Coast Conference Players of the Week during the 1978-79 season. Graham for his Maryland Record 44 point performance against North Carolina State and 18 points against Canisius. King for his 47 points while winning MVP honors in the Maryland Invitational Tournament. The Terps defeated St. Josephs and Southern California to win the title. Manning for his 23 points while hitting 10 of 14 shots from the field in Maryland's 70-68 upset of Duke. He also had six assists in the game.

Buck Williams was honored three times as the ACC "Rookie of the Week" enroute to winning the league's "Rookie of the Year" honors. Contributing to William's selections were 15 rebounds in the 67-66 upset of Notre Dame, the nations top ranked team, on National Television, his 13 rebounds against then fourth ranked North Carolina State and 23 rebounds along with 26 points in the Penn State and Biscayne games.

COACH DRIESELL'S OFFENSIVE PHILOSOPHY

My offensive philosophy as a junior high school coach, high school coach and college coach has always been the same. We run a pro oriented offense which features a fast break and strong inside game. We try to get the highest percentage shot possible and never take a shot at the basket from outside unless we have 3 or 4 people in position to go to the offensive boards.

Our first objective is to create a fast break situation on defense by (1) making our opponents turn the ball over (2) getting a rebound and throwing the outlet pass quickly (3) getting the ball in quickly after a made basket or free throw and advancing it up the court and getting an overload in transition. We have always been a fast breaking, high scoring, offensive team.

If we are not successful in scoring on our "fast break offense" after a steal, rebound or basket then we will go to our set offense which has always been inside oriented and in the past we have primarily run a double low post offense. However at times we have run a stack offense using three inside men as we did in 73-74 with Tom McMillen, Len Elmore, and Owen Brown or Tom Roy in the lineup. This year we plan to run from a 2-1-2 set.

Again it is my philosophy that the more shots that we get in the free throw lane area the higher percentage we will shoot and the more fouls we will force our opponent into committing. Therefore our offense is predicated to getting the ball to the big men inside and as you can see we have had four legitimate All-American pivot men in Fred Hetzel (Davidson '63), Mike Maloy (Davidson '70) Len Elmore (Maryland '74) and Tom McMillen (Maryland '74). However if our opponents jam inside we must have excellent outside shooting from our guards. Dick Snyder (Davidson '66) has been our all time leading scorer for one season 27.8 points per game his senior year and John Lucas (Maryland '76) has been our all time leading scorer at guard averaging 20 points per game. Both of these men were also legitimate All-Americans.

Our philosophy has always been that you must get everyone involved in the offense and you must have good movement of the ball and again get as many high percentage shots as we can in the free throw lane area either with our fast break or "set" offense.

Our offense has produced 10 teams that shot over 50% from the floor.

We feel our offense is exciting, disciplined and an excellent preparation for it is similar to what our athletes will play in the pros.

COACH DRIESELL'S DEFENSIVE PHILOSOPHY

Throughout my coaching career as a junior varsity, high school and college coach I have always believed very strongly that I should teach my athletes to play hard nose man for man defense. This has always been our style of fundamental defense and if there is one thing that I strongly believe, it is that your team is only as good as you are defensively. Our 1973-74 (ranked 4th in the nation) team for example held our opponents to a field goal percentage of 39.9 percent for the year. I think we were able to accomplish this because we carried out our philosophy on defense which is not to allow our opponents any shots in the free throw lane area and to force them to shoot outside with pressure on them and to do an excellent job of blocking out and not allow any second shots.

We like to overplay our man one pass from the ball and force our opponents out of their offensive patterns. We do a lot of sagging and helping when we are two passes from the ball. We have had some great defensive centers such as Len Elmore, Mike Maloy, Fred Hetzel and Tom Roy who have done an excellent job of blocking shots and protecting the basket for us. We have also had some great defensive forwards such as Dick Snyder, who during his senior year held three opponents who were averaging over 20 points a game to 1 point, 2 points, and 0 points.

We believe that we must dictate to the offensive man and team and not let them do what they want to do. However, our philosophy is that if a players man scores a lay up on him, it is his fault and responsibility. However, if he shoots outside and we have pressure on him and he makes the basket it is my (coaches) fault and responsibility. We like to look at our shot charts at the end of a ball game and see how few layups and shots in the free throw lane area that we have allowed our opponents. Normally, if we do not give many shots or baskets inside we will come out on top, we also like to force turnovers and make our opponents shoot a low percentage from the field.

In order to have diversity we will also play a half court trap defense that we call our "Golash" defense and we will also play some type of zone each year for opponents that we feel are particularly weak against zones or for use at the end of a close ball game.

We will full court man for man and zone press in case we fall behind and feel that we must press in order to catch up. However, our money defense is our straight man for man defense and our "top ten" teams in the past have been very tough and aggressive on defense.

Another strong reason for using a man for man defense is because we want to prepare our athletes for professional basketball.

TERRAPIN NOTES

Driesell's Terrapins have advanced to the semi-finals of the ACC Tournament in seven of the last eight years, a feat equaled only by the North Carolina Tar Heels. The Terps went on to the championship game three times.

During those eight years, with teams recruited by Driesell, the Terps have won nine of 17 tournament games. Only North Carolina with 11 of 13 has won more. Virginia has won eight of 15 and North Carolina State eight of 14 tournament games during the same span.

TERRAPIN NOTES

Maryland led the ACC in home atendance once again and with an average of 11,196 per home date was one of only 28 teams in the nation averaging over 10,000 per game.

The Terps drew 201,536 fans to Cole Field House and only 13 teams topped the 200,000 mark.

Since "Lefty" came to College Park the Terps have draw 1,833,440 fans to Cole Field House. During the ten year period the Terps have had 149 home dates and averaged 12,304 per date. The year prior to "Lefty's" arrival the Terps drew 66,500 for 10 dates, a average of 6,650 per game. The Terrapins have led the ACC in total attendance for the past eight years.

TERRAPIN NOTES

"Lefty" Driesell's Terrapins played five games against teams ranked among the top five in the nation last year, eight games against teams ranked among the top eight, and 10 against top 20 teams. Maryland won three of five against the top five and split the eight games with the top eight teams.

The Terps defeated Notre Dame the Nation's top ranked team, 67-66 on National Television just a week after dropping a one point decision 53-54 to the second ranked North Carolina Tar Heels.

Maryland also topped Duke, the fifth ranked team 70-68, just two weeks after losing a nine point decision to the Blue Devils while they were ranked third in the nation.

The Terps opened the ACC schedule with a 124-110 win over the fourth ranked North Carolina State Wolfpack and came back with a 82-81 overtime win in Raleigh while the Wolfpack were ranked eighth.

The other three losses to top ten teams were all to North Carolina while ranked second, sixth and seventh.

In addition to the 10 games with teams ranked among the top 20 at the time, including Nevada Las-Vegas and Louisville, Georgetown moved into the top 20 after meeting the Terps early in the season.

One of the toughest places in collegiate basketball to win is on the home court of the four North Carolina schols in the ACC. Coach Driesell's Terps swept all four games there in 1975, won three of four in 1977 and split the four games in 1972, 1974 and 1979. During those eight years the Terps are 14-18 in regular season games in North Carolina and 8-7 in tournament games in Greensboro. During the same period the Terps are 9-7 on the home courts of the Clemson Tigers and Virginia Cavaliers for an overall ACC road record of 23-25. During the same period the Terps are 13-14 at home against the league opponents.

Buck Williams, the ACC "Rookie of the Year" in 1979 played on the United States team in the International Cup competition and was the second leading scorer on the 11 man squad, with 62 points in five games. He scored 16 in the win over Formosa and 15 in a overtime win over France.

The Terrapins are timed for the Mile run and a Mile and a Half run when practice begins. Buck Williams broke the Basketball record for the mile run as a freshman with his 4:59 and topped that this past October with a 4:53. The old record was the 5:00 turned in by Guard Rich Porac in 1974. Tom McMillen's 5:18 had been the best time turned in by a big man.

Nine of the 10 returning from the 1978-79 team improved their times for the mile with Albert King making the biggest improvement knocking 24 seconds off his previous time with a 5:06. Greg Manning with 5:10, Reggie Jackson 5:12, Jon Robinson 5:14, Dutch Morley and David Henderson with 5:24 all improved and turned in times that were topped by only two men in 1978.

MARYLAND EDUCATIONAL FOUNDATION

Tom Fields is one of the major reasons the University of Maryland Athletic Department is one of the few Athletic Departments in the nation operating in the black.

Fields, a retired Colonel from the Marine Corps, is the Executive Director of the Maryland Educational Foundation, the organization assuming responsibility for the scholarship aid to Maryland athletes.

The former Maryland Track All-American returned to Maryland in 1970 when the contributions to the Educational Foundation were minimal. For the fiscal year ending June 30, 1970 the contributions were approximately $30,000.

For the past fiscal year the funds generated by the Educational Foundation totaled over $900,000.

The membership of the Terrapin Club has expanded accordingly from the 132 original members to 1,850. The Club in addition to the contributions to the Educational Foundation supports the athletic program in many other ways especially with their attendance at the events. Over one half of the contributors are not graduates of the University of Maryland. However all are strong supporters of Intercollegiate Athletics and its principals of competition.

The funds provided by the foundation have not only enabled the University's self-sustaining program to remain just above the break even point but has enabled the Terrapins to develop a Women's program that has also gained National recognition. The scholarship program for the women athletes is on a par with the program of the men's non-revenue sports.

The Terrapin Club membership currently includes 26 life members ($10,000 contribution) 402 Diamondback members (1,000 annual contribution) and 575 Gold members ($500 annual contribution) among the 1,850 contributors.

As a track star Fields helped lead the Terps to one of their finest days ever at the Penn Relays winning three Championship of America races. During World War II he served in combat in Guadalcanal, Vella Lavella, Bouganville and Iowa Jima. He also served in Korea and Vietnam and at the time of his retirement from the Corps he was the Deputy Director of Information, Headquarters, Marine Corps.

DR. JOHN SAMPSON TOLL

PRESIDENT
UNIVERSITY OF MARYLAND

John S. Toll, the 22nd president of the University of Maryland, has been in office for a little more than one year but he has already become a vital force for higher education in the State of Maryland.

The drive behind the Toll presidency is a pledge that "with a determined effort from everyone concerned, the University of Maryland can, in about a decade, become one of the best state university systems in the nation."

Since he became president on July 1, 1978, the University has developed planning documents for the Eastern Shore and Baltimore County Campuses; has initiated multi-campus programs which utilize the resources of the College Park Campus and the University of Maryland at Baltimore; is helping to develop plans through University College for a national television education system; and has raised undergraduate admission standards.

More than $465.000 in grants, including a $190,000 Carnegie Foundation award, were obtained in the first eight months of the Toll presidency to assist Dr. Toll in developing his "Agenda for the 80s," a plan to assure that the University will meet future societal needs. The Carnegie grant will fund an intensive study of the University's roles and missions by a team of educational experts. The results of the study may make the University of Maryland a model for other universities.

"The University of Maryland must adapt to new circumstances and respond to new demands that are being made of universities to provide increasing services to the society," President Toll said. "This process of reshaping the University to gain more effective use of resources, to expand the service mission, and to increase the excellence of the teaching and research missions is now underway. The University intends to bring its resources to bear on the social and economic development of the State of Maryland and to develop scholarly programs and research projects that will help the state and the nation prosper during the next decade."

Although President Toll has been in office for less than 15 months, he is very familiar with the University and the College Park Campus. Dr. Toll first came to the University in 1953 as professor and chairman of what was then a six-man physics department.

Dr. Toll received his undergraduate degree in physics from Yale where he graduated with highest honors. His advanced physics degrees were earned at Princeton. An avid jogger, camper and tennis player, Dr. Toll and his wife Deborah have two daughters.

DR. ROBERT L. GLUCKSTERN

CHANCELLOR
COLLEGE PARK CAMPUS

"The College Park Campus," Says Robert L. Gluckstern, Chancellor of the eighth largest campus in the nation, "is reaffirming its commitments to research, scholarship, and the advancement of knowledge, including the search for solutions to social problems and the pursuit of excellence for its own sake."

One program that emphasizes academic excellence is the Chancellor's Scholars Program. With financial support from alumni and other friends of the University, the Chancellor's Scholars Program seeks to attract and retain top quality students to College Park through the annual award of $500 renewable scholarships to outstanding high school students.

The Distinguished Scholar-Teachers Program, established last year, emphasizes academic excellence by recognizing faculty members who have been particularly successful at translating scholarship into classroom teaching. Each of the six professors selected are given time to develop an honors seminar, a graduate seminar, and a series of public lectures in connection with their areas of expertise during the coming year.

College Park's General Honors Program, now in its fifteenth year, has come to be respected as one of the best of its kind throughout the nation. Despite the pressures of administration, Dr. Gluckstern contributes by teaching a General Honors course in physics almost every semester. He also continues to be active in research.

The accent on quality that has characterized Dr. Gluckstern's administration leads naturally from his own academic background. Educated at the City College of New York (Electrical Engineering) and MIT (Ph.D. in Physics), Dr. Gluckstern taught at Yale University for fourteen years. In 1964 he joined the faculty at the University of Massachusetts at Amherst as professor and chairman of the physics and astronomy department. Under his leadership, the department grew from 14 to 52 faculty members and increased federal support from $30.000 to $950.000 a year.

A member of the Terrapin Club, he is an avid fan and works out on the racquetball courts. He frequently reminds people that Maryland can be proud of its athletes who have combined varsity skills with excellent academic records.

Dr. Gluckstern, who is 54, was born in Atlantic City, New Jersey. He is married to the former Norma Block. The Glucksterns have three children.
